AVANTE COLLECTION - Contemporary Aluminum Garage Doors

This garage door is the perfect choice to modernize any home; transforming not only garages, it can also be used as an indoor loft partition or a versatile patio door to seamlessly merge indoor and outdoor living spaces. At the press of a button, these doors are automatically raised, allowing traffic to flow during gatherings. Closed, they create an attractive wall of windows, adding a panoramic view to any living space.

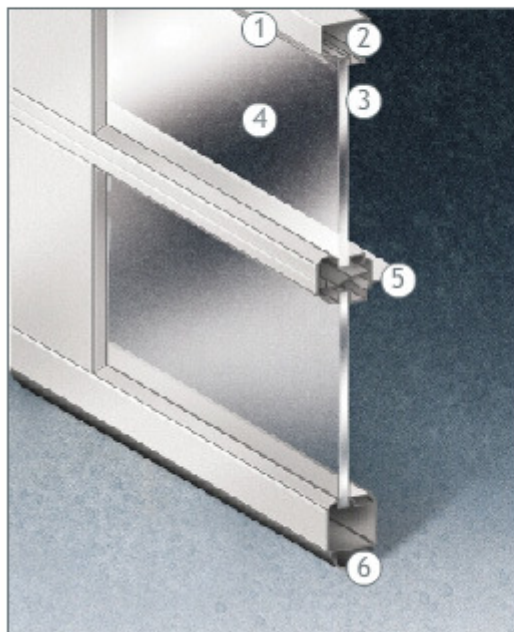

Many window options are available to control the degree of light transmission and privacy. Insulated glass is also available for increased energy efficiency.

The glass is supported by a durable, 2 1/8-inch thick, rust-free, aluminum frame that can be custom-painted or sealed with a clear anodized aluminum, anodized black, anodized bronze, white or brown finish. Solid aluminum panels in finishes matching the frame are also offered.

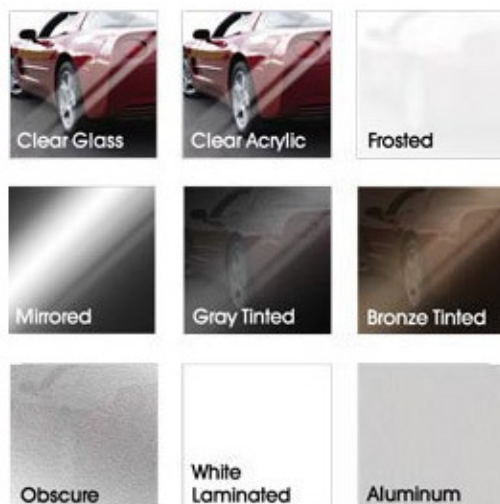

- 2-1/8" thick rust-proof aluminum frame
- 9 window options for varying degrees of light transmission/privacy or solid aluminum panels for total privacy/protection
- 5 factory finish paint colors or Ultra-grain woodprint stain

AVANTE COLLECTION - Construction

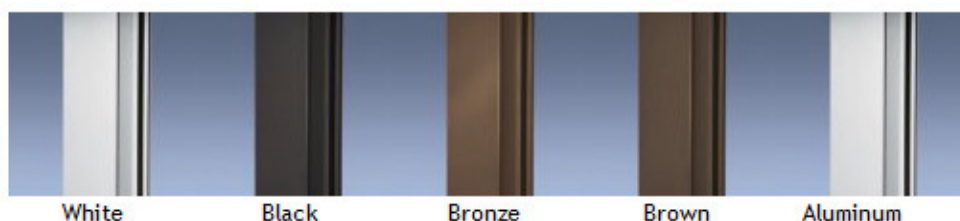

- ① 2 1/8" thick sections
- ② Heavy-duty aluminum frame available in a variety of colors (see frame colors below)
- ③ Panels secured with a weather-tight seal
- ④ Many glass or aluminum panel options available
- ⑤ Integral reinforcing fin
- ⑥ Aluminum retainer with vinyl weatherseal

Aluminum Garage Door Glass Options

Glass is available in 1/8" single pane or 7/16" insulated. White laminated and mirrored glass not available insulated. Custom glass and frame colors are available.

Aluminum Garage Factory Finished Frame Colors

Frames can also be painted to match your home's exterior.

Factory Finish Ultra-Grain Stain

- Light Cherry
- Dark Cherry

What is Ultra-grain?

Ultra-grain is an extremely durable woodgrain print coating that delivers the best of both worlds: the realism of natural wood with the low maintenance and durability of rust-proof, lightweight aluminum. But unlike real wood, it's UV resistant and impervious to moisture, so it won't fade, rot, split, shrink, separate, or crack.

The factory applied faux finish is created utilizing a dye-sublimation process analogous to the making of a tattoo. A base coat is applied and then a high definition wood grain pattern is baked in creating a layered wood grain pattern as deep as the coating itself.

The grain runs horizontally and vertically, following the stiles and rails, for a more authentic natural wood appearance.

No special maintenance is required to preserve the finish beyond a standard recommendation to periodically wash and rinse the surface.

Aluminum Garage Door Glass Panel Arrangements

Drawings of these residential garage door panel arrangements are representative only. Please contact your [DEALER](#) for specific illustrations providing dimensions, width and height availability, and line drawings for each design.

CANYON RIDGE COLLECTION - Rustic, Faux Wood Garage Doors Duplicate the Beauty and Texture of Natural Wood - Without the Upkeep.

Features:

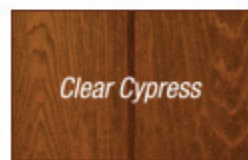

- 5-layer construction, steel + insulation + steel + cladding + overlay
- Available with either 1 3/8" Polystyrene insulation with an R-Value of 8.5* or 2" Polyurethane insulation with an R-Value of 19.2*
- Swing out appearance, overhead operation
- 14 base designs with optional windows and decorative hardware
- Over 200 unique style combinations
- Factory finished in either Medium or Dark Finishes or Painted White. Can be field stained.

*Calculated door section R-value is in accordance with DASMA TDS-163

1/2" thick polymer composite cladding and overlay materials are molded from actual wood to replicate wood's natural texture and intricate grain patterns as well as its imperfections, like deep, irregular pockmarks, knots, cracks, and holes.

Lightweight, durable and easy to maintain, once installed, these rustic beauties are virtually indistinguishable from the original.

Cladding Material Options:

Clear Cypress

Mahogany

Pecky Cypress

Overlay Material Options:

COACHMAN COLLECTION - Insulated steel carriage house style garage doors.

If you like the high-end look of wood carriage-house style garage doors, but still want the benefits of a durable, low-maintenance, insulated steel garage door, consider the Coachman Collection.

The designs vary to complement many architectural styles including Craftsman, Shaker, Traditional, French Country, Tudor and Victorian.

Accented with decorative black wrought iron hardware, Coachman doors have the charming appearance of a swing-out door, but offer the built-in convenience of modern overhead operation.

- 4-layer insulated steel + composite construction
- Swing out appearance, overhead operation
- 11 base designs with optional windows and decorative hardware
- Over 100 unique style combinations
- 4 factory finish paint colors

THESE DOORS (Without Windows) QUALIFY FOR ENERGY TAX CREDIT -

- ① Base Door (steel)
- ② Overlay (composite)
- ③ White custom composite overlay has detailed coped edge for beautiful finished look.
- ④ Weather-tight tongue-and groove section joints help seal out wind, rain and snow.
- ⑤ Prepainted white end stiles and interior steel backing create a clean, finished appearance.

Safety Features

We've engineered safety into all our products. [Learn more.](#)

Warranty Information

- Limited lifetime paint system guarantee
- Limited overlay and window discoloration: 10-year guarantee
- Limited hardware and overlay delamination: 5-year guarantee

Series One

The sophisticated simplicity of vertical overlays in varying widths with optional decorative windows complements classic architectural styles such as Mission, Shaker, and prairie-style homes. *(Click any of the images below to view all window/panel configurations).*

Design 11

Design 12

Design 13

Series Two

Traditional carriage-house designs featuring full or half cross-buck panels and decorative windows. *(Click any of the images below to view all window/panel configurations).*

Design 21

Design 22

Design 23

Series Three

Fully enclosed to provide maximum privacy, with optional cross buck bottom panels and square or arched solid top sections, this series is an architect's choice for a variety of home styles including transitional, French Country, and Victorian-era homes. *(Click any of the images below to view all window/panel configurations).*

Reserve Collection Custom Doors

Custom designed by you, built by us. Armed with a homeowner's sketch or architect's drawing, our Custom line capabilities enable us to create just about any door you imagine, using the wood of your choice such as teak or mahogany.

Factory Finish Paint Option:

When you take advantage of Clopay's factory finish paint option,* your wood door arrives primed, painted and ready to install. We've eliminated the extra steps of hiring a contractor to finish the door on site and the added worry that the job will be done right. The door is stored and finished according to Clopay warranty guidelines, for a durable, flawless, vibrant finish, worthy of the most discriminating close-ups.

Door panels are sealed with a paintable caulk to resist moisture and then treated with a layer of primer followed by two coats of white latex paint.

*Not available on redwood or cedar doors.

CLASSIC LINE OF WOOD DOORS -

PREMIUM SERIES -

Three-layer insulated steel garage doors

Environmentally safe, HCFC-free insulation 1-3/8" to 2" thick, depending on the model, is sandwiched between two layers of steel for exceptional energy efficiency, strength and security, as well as quiet operation and a beautiful appearance. Choose from a wide range of design options to create a door that fits your budget and enhances your home's curb appeal.

- 3-layer insulated sandwiched steel construction (steel + insulation + steel)
- Two insulation options: polystyrene or polyurethane
- 3 panel designs with optional windows
- 6 factory finish paint colors

A NUMBER OF THESE DOORS QUALIFY FOR ENERGY TAX CREDIT -

- ① 3-layer pressure bonded construction. 2" polyurethane (as shown) or polystyrene insulation for maximum energy efficiency. 1 3/8" polyurethane or polystyrene also available.
- ② Patented Safe-T-Bracket ® helps prevent serious injury that could occur if the bottom bracket were removed with the garage door closed and under tension.
- ③ Bottom weatherseal in a rust-proof aluminum retainer helps prevent elements from entering garage.
- ④ Weather-tight tongue-and-groove section joints help seal out wind, rain and snow.
- ⑤ Galvanized steel hinges attached to backup plates are durable, reliable and secure.
- ⑥ Nylon rollers are smooth and quiet
- ⑦ Prepainted white end stiles and interior steel backing create a clean, finished appearance.
- ⑧ Inside/outside step plates and grip handles make doors easy and safe to operate.
